

# Chica China en Quito

Newsletter – Sept'14

## Hola amigos!

Greetings to you all from Hong Kong! I am happy to have met most of you over the past couple of months. These are my last few days in HK, and I will be returning to Quito very soon. God has been really gracious that I had the opportunity to meet many new people and share with many my experience during this time away from Quito.

## Beijing

I was in Beijing for a month in July to complete a certificate for English teaching, CELTA. Through my time there, I was able to understand a little better how religion is viewed in mainland China. Since I am from HK, I had the privilege to experience both the local Three Self church and also the international church (exclusive for foreigners). The latter enjoyed a lot more freedom than the former. It made me appreciate more the freedom of worship and speech I have right now.

## Next step?

Next Sunday I will be back in Quito. I will continue working with Union Biblica and teach Values classes and organize evangelical events. On the side,

Ecuador shoes painted by my brother

I will continue to be involved in the Chinese church.

In this coming year, I wish to know my students on a more personal level (it was hard as we taught a thousand students per week). In developing the teacher-student relationships which were established last year, pray that we can show them more love and care for their specific needs.

This was my first stop after Quito. I felt really at home with my home church, [Chinese Church in London](#), once again being able to enjoy fellowship with brothers and sisters. Not only did I share with the church as a whole, but I also had the chance to share in smaller fellowship groups and with families. It was a real blessing to be part of them, more so when I was amongst those who I did not know before, but were still connected through the church and through prayers.

## Hong Kong

Praise the Lord for the time I had with my family. It was wonderful to be spending some quality time with them. We talked a lot to make up for the time when we were apart. I was also happy to be able to be there for my grandpa when he goes to the doctors as well as church fellowship.

I shared my Ecuador experience with a few groups and schools, and also did a radio interview during this time. It was an honor to be able to spread the awareness of the work we do.

## For those who pray...

- > Praise God for all the family time I had.
- > Please pray for my grandfather's health
- > Praise the Lord for all the fellowship I was able to enjoy. I'm feeling so blessed.
- > Pray for God's guidance for me as I continue working in Ecuador for a 2<sup>nd</sup> year.
- > Pray for God's provision, since I am only halfway through raising my needed funds.
