

**The Next Generation Ministry** is a lively and loving community for young people, with **Kids Church** for primary school ages and **Youth Church** for secondary school ages, with groups across the centres of the Chinese Church in London.

As a church, we exist to make disciples of Jesus to transform London and the world!

We strive to be a community where each person comes alive in Jesus and grows to become more like him by loving God, loving each other, and loving our neighbours.

This includes children, young people, and their families, who make up a significant part of the church community in each of our congregations.

## Rising up to live out a lasting faith in Jesus!

To see The Next Generation live out this vision, discipleship takes place through intentional relationships and fellowship, seen in a number of ways such as:

- ▶ creative worship and prayer
- ▶ interactive biblical learning
- ▶ social activities and games
- ▶ pastoral care in small groups and mentoring
- ▶ growing in gifting by serving others
- ▶ participation in integral mission

Transforming lives from wide to deep: Big groups bring our young people together to hear the gospel. Small groups and mentoring enable us to experience life and grow together, building up character and a commitment to Christian living.

By working together as a church family, we aim to model Christ-centred:

- ▶ **Identity:** As our young people explore their view of themselves and ask "Who am I?" we affirm that they are enough in Christ.
- ▶ **Belonging:** As our young people build connections with others and ask "Where do I fit?" we show that they belong with God's people.
- ▶ **Purpose:** As our young people consider their place in the world and ask "What difference can I make?" we invite them into God's story.
