

I'm Dr Leo Cheng. I've volunteered for Mercy Ships as a surgeon for more than 20 years. Today, I'm asking you to bring healing to someone who really needs your help.

When Marie Elisa arrived on the Africa Mercy, she looked dejected. Dispirited. Depressed.

She had a large, heavy tumour on her face.

For five years, she'd carried the burden of this tumour. It had grown so much that it filled her whole mouth. She couldn't eat properly. Or swallow. She was dangerously underweight.

When I examined her, I saw her tongue was slowly being pushed back into her throat. Eventually, she could have suffocated. Her life was in danger.

我鄭醫生。我作為外科醫生志願服務 Mercy Ships 已超過 20 年。今天，我請求您為真正需要您幫助的人帶來治癒。

當瑪麗·埃莉莎登上非洲仁慈號時，她看起來很沮喪。頹廢。鬱悶。

她的臉上長了一個又大又重的腫瘤。

五年來，她一直承受著這種腫瘤的負擔。它長得這麼大，填滿了她的整個嘴。她無法好好吃飯。或吞嚥。她的體重嚴重不足。

當我檢查她時，我看到她的舌頭慢慢地被推回喉嚨。最終，她可能會窒息而死。她的生命處於危險之中。

Thank you for your love and compassion,

With gratitude,

Dr Leo Cheng
