Deadline for application:	7 Jun 2026
Contact:	mctstm@ccil.org.uk or Warrick Email: constanta@ywam.ro

1) We run an all year round ministry in a community housing project here in Constanta that is home to over a thousand mostly Turkish Gypsy families. During the summer to supplement our regular programs we like to hold additional events. We would love to explore what these possibilities might look like with your team. We already have a team booked for this year to help us run our annual day camp event but we are open to exploring other possible events with your team. These could include running sports themed or water games themed events. If the members of your team are gifted in a particular area we could explore the possibility of creating a program around those gifts for example a sports based program or a dance based program and then offer this program to members of the above housing program.

2) There is huge scope within this community to participate in practical projects around this community. We would like to revitalize the area where we hold our weekly events. We want to paint game lines and playground style games on the court (Hopstock etc) These projects can be as simple as picking up rubbish and basic gardening to more energetic activities like clearly waste land. There are areas of graffiti that we would like to paint out and if possible replace with an attractive mural.. The area has many clothes lines which have lost their cords or the cords have become loose making them ineffective. It is also our desire to create some new outdoor areas for the residents of the community that allow them to gather and and enjoy fellowship and friendship - the aim of these types of spaces would be to work alongside the residents of an apartment block and to support them to develop an outdoor space and assist them to take ownership and responsibility for the space.

These types of mission activities may seem less glamorous and less overtly spiritual but they can be a powerful tool for speaking love, life and value into a people group which are constantly overlooked, rejected and hated. These expressions of love also open doors for more ministry either at the time or for our time in the future.

With this type of program the team could do practical work throughout the week and build connections within the communities and then at the end of the week use these connections to have a time of sharing testimonies with those they have worked alongside.

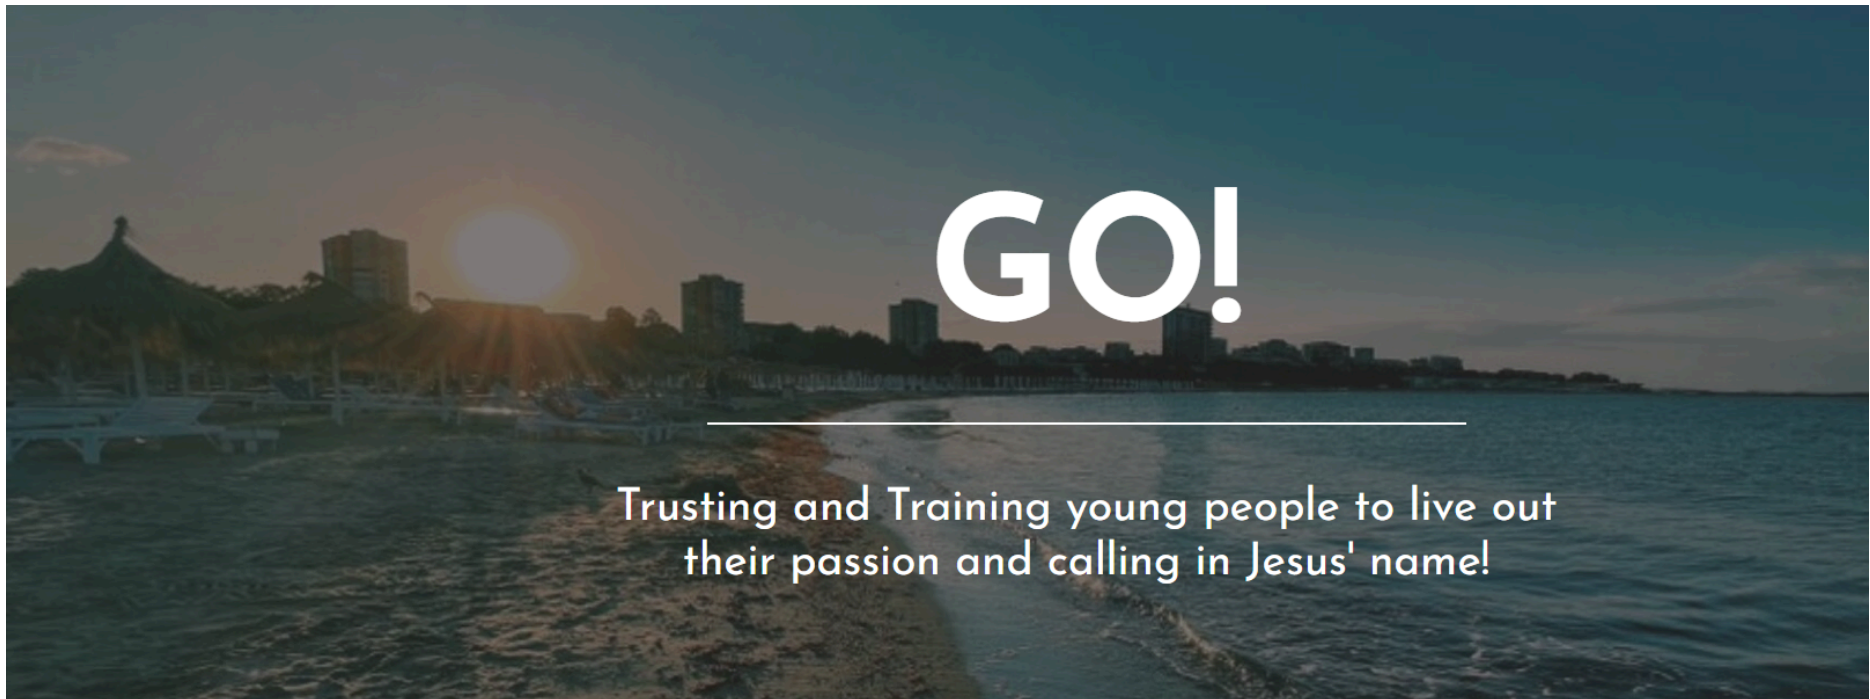

3) This year our youth ministry / The Kings Kids team is planning to launch a next generation Kings Kids Group and I am sure that they would be excited to explore the opportunity of your team coming and running a program that targets this age group. They are also looking at the possibility of going out to some of the villages around Constanta and partnering with local churches there that are often overlooked because of their smaller size.

4) As it will be the height of Romania summer, we could fashion a beach outreach program in partnership with our community center - the team could spend the afternoon interacting with young people at the beach and then invite them to events your team could host / co host at our community center in the evenings.

5) Each summer the local churches combine to run an evangelical outreach around the city. Teams go out all around the city and use various methods to connect with the community and share the gospel with them The Event hosts a number of evening music concerts. The dates for this event has been set for July 20-23rd

6) In July 2026 (Dates to be announced) Constanta will host one of Europe's biggest music festivals: The Neversea Festival. Young people coming from all around Europe to party. Assuming the dates line up We could explore the possibility of your team doing outreach in the style of Summer Nightlife Outreach near the venue Note that due to the possible of participants being exposed to party culture and behavior we do recommend that participates involved in this type of ministry are 18 years or older or are under the care of a designated adult and parents are aware of the risks.

7) If the dates do not line up for the Neversea festival there is still the possibility of using the Summer Nightlife outreach model and doing street evangelism around some of the hot tourist spaces of Constanta.
